Glamour Stunning

*fashion is not something that exist to dress only, fashion is in the sky,
in the street, fashion has to do with ideas the way we live, what is happening.*

The Unforgettable Memories

*When you lose fashion, there is no comeback. Everything just blows
together. Fashion is about how you place the object in the person.
I base most of my fashion taste on what doesn't item.*

Dazzling Pattern

*In love fashion & there is no easier way to express yourself than through the clothes you wear.
The difference between style & fashion is quality.*
